WORK EXPERIENCE

- Saperium, Inc.**
 - Software Engineer Intern
 - Jun 2016 - Aug 2016
 - Developed several applications such as a **realtime auction system** and a **website administration tool** using ASP.NET, SignalR, AJAX, jQuery and HTML/CSS.
 - In one week, developed a **realtime messaging application** for iOS using Objective-C and ASP.NET web services.
- Triangle Enterprises**
 - Software Developer
 - Mar 2015 - Jun 2015
 - Designed and developed a **POS system** using Ruby on Rails with MySQL, automating and expediting the company's inventory and stock related processes.
 - Developed an **automated document printing program** using VBA, removing the need for sales staff to manually cross check documents and receipts.
- AdMU/CompSat**
 - Software Developer
 - Jun 2014 - Present
 - Developed the **Ateneo E-Wallet**, a barcode-based electronic wallet platform for Web and Mobile using PHP (CodeIgniter), REST, MySQL, HTML/CSS, and Android Java.
 - Developed **RenDEVous**, a platform for connecting freelance developers and customers using PHP (CodeIgniter), REST, PostgreSQL, and HTML/CSS.
 - Developed registration and attendance programs for **four organizations in one week**.
 - Developed a website for Ateneo's premier marketing organization (AJMA) using jQuery, PHP, and HTML/CSS.

ORGANIZATION WORK

Computer Society of the Ateneo (CompSat)

- Vice President of Research and Development**
 - Jul 2016 - Present
 - Maintained the **configuration, upkeep and reliable operation** of the organization's systems and hosting servers.
 - Managed development projects by marketing the organization's services, communicating and negotiating with clients, constructing timelines and cost estimates, supervising and delegating projects to the development team, and drafting official documents such as memorandums of agreement and non-disclosure agreements.
 - Oversaw and improved departmental projects** such as Blue Hacks, university-wide development tutorials (Basic Web Development), and development team training sessions (iOS, Android, and Advanced Web Development).
 - Quickly resolved and prevented problems** that arose in the planning and management of departmental projects and client relations.
- Blue Hacks 2016 Project Lead**
 - Jan 2016 - Feb 2016
 - Given a **limited timeframe of six weeks**, spearheaded the launch of CompSat's first hackathon in partnership with Saperium, Inc.
 - Adapted to the fast-paced planning phase of the project through efficient work delegation while overseeing a core team with 16 members.
- Patchwork Manila 2016 Project Lead**
 - Mar 2015 - Jun 2015
 - Approached and coordinated with GitHub, Inc. to pioneer and spearhead one of the **first Patchwork events in Southeast Asia**, and attained one of the highest number of participants in any Patchwork event globally.
 - Oversaw and delegated tasks to a core team with 20 members.

Other Organizations

- Lights For Hope 2016**
 - Facilitators Committee
 - Subcore Member
 - Oct 2016 - Present
 - LFH: An event that gathers 1,200 kids for a day in the spirit of love, service and hope.
 - Helped create modules and facilitated training sessions for **over 1,000 volunteers**.
 - Designed and developed a database management system using PHP (CodeIgniter).
