

CAMILLE DIEZ

Manila, Philippines – diezcami@gmail.com – <http://diezcami.me>

EDUCATION

Ateneo de Manila University

B.S. Computer Science, Dean's Honors List (3 semesters)

Quezon City, PH

Graduation: May 2017

Hong Kong University of Science and Technology

International Summer Exchange Program

Clear Water Bay, HK

Jun 2015 - Aug 2015

WORK EXPERIENCE

Ateneo de Manila University

Summer Programming Camp: Teaching Assistant

Apr 2015 - May 2015

- Answered Java, programming and general questions raised by students throughout the program, as well as personally assisting those who were not able to understand certain concepts during exercises.
- Completed logistical tasks (eg. Creating props for the program, setting up the venue and running errands).

Triangle Enterprises

Software Developer and IT Consultant

Mar 2015 - Jun 2015

- Drafted and designed an architectural prototype of a database based on MySQL with ERD and UI proposals
- Implemented a DBMS using Ruby on Rails with MySQL, complete with a functional front end interface
- Performed miscellaneous errands including, but not limited to organising and distributing inventory stocks, drafting letters/emails and organising the storage of several files related to the business.

Software Developer and IT Consultant

Mar 2014 - Jun 2014

- Implemented a printing automation program using VBA that extracts and transforms groups of text data from Excel sheets into individually formatted outputs.
- Implemented various MS Excel sheets that automated both PC and paper-based businesses processes (eg. Generating acknowledgement receipts, inventory and stock management, etc).

PROJECTS

Open Source Contributions: <http://www.github.com/diezcami>

Multiple Languages and Frameworks including Java, Python, Bash, CSS/HTML, etc.

- Forked repositories and added features, resolved issues and refactored code through pull requests.
- Adapted to new project environments daily by spontaneously learning language features, frameworks and coding practices from studying production code in repositories.
- Profile also hosts my own repositories containing original source codes and patches for my projects.

Personal Blog: <http://diezcami.me>

Javascript, CSS(SASS)/HTML, Markdown

- Deployed a blog using Jekyll for static HTML generation, CSS(SASS) for the front end, and Markdown for content.
- Wrote articles across the following tags: C++, Java, Git, Unix, Programming

EXTRACURRICULAR ACTIVITIES

Computer Society of the Ateneo

Development Team

Jun 2014 - Present

- Designed and drafted visual layouts and framework plans while planning the creation of websites.
- Fully implemented and deployed the organisation's "Geek Sale Shirt" website using front-end technologies such as HTML/CSS, PHP and Javascript.

Sanggunian ng mga Mag-aaral ng Ateneo de Manila

Central Board Representative, Committee on Academic Affairs Co-Chair

Jun 2013 - Mar 2014

- Participated in several screenings to allocate budgets for funding various university organisations.
- Designed, implemented and presented the Beadle Management System, a database that contains information regarding a course's professors and its contact-persons, otherwise known as beadles.
